## Advanced Electronic Systems for Flying Insect Control

Effective in killing a broad range of insect pests including mosquito species which can transmit West Nile virus & other infectious diseases.

### Flowtron Insect Killers are best because:

- Patented, high efficiency, vertical rod killing grids are clean, safe and dependable.
- Powerful 5,600 peak volt killing grid system ensures **dog-free** performance.
- High intensity ultraviolet light effectively attracts a wide range of flying insect pests.
- **Green by Design**; no chemical fogs, mists or sprays.
- Includes a free Flowtron Octenol Mosquito attractant cartridge; a scientifically tested lure proven effective for mosquitoes and biting flies.
- Rugged, weatherproof construction; will not rust, crack or fade.
- Easy to use; plugs into any ordinary household outlet.
- Economical; 24/7 protection
- Avoids the continuing expense and inconvenience of chemical insecticides.
- Easy bulb replacement without the use of tools.
- Two year limited warranty

### A model for every need

#### Model BK-15

Residential use up to 1/2 acre.

High intensity 15 watt white ultraviolet light.

Unit dimensions: 8 1/2" x 8 1/2" x 13 1/2"

#### Model BK-40

Residential use up to 1 acre.

High intensity 40 watt white ultraviolet light.

Unit dimensions: 9 3/4" x 9 3/4" x 16 1/2"

#### Model BK-80CCN

Residential use up to 1 1/2 acre.

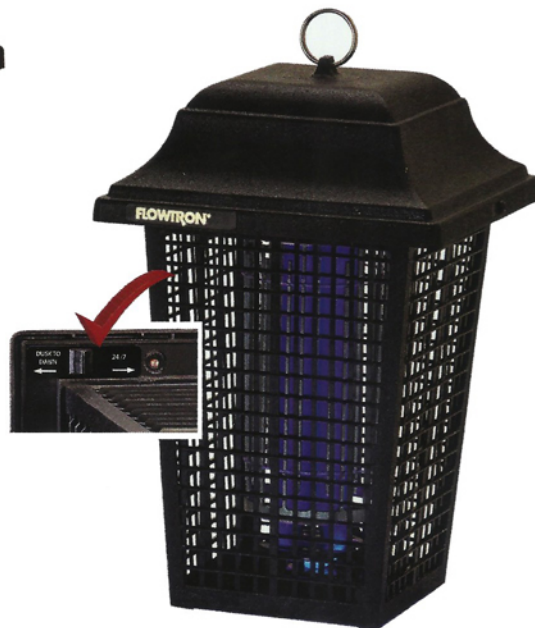

High intensity black ultraviolet light.

40% more effective than white UV light.

Additional ultraviolet LED lighting.

New **Energy saver** feature: on at dusk, off at dawn.  
Saves electricity and extends bulb life.

Unit dimensions: 9 3/4" x 9 3/4" x 16 1/2"

### Patented, Non-Clogging Killing Grid

Safer, cleaner, more effective and more dependable

Flowtron's  
High Tech Vertical Grid  
Keeps clean and working reliably  
all season.

Other Brand's  
Ineffective Wire Grids  
Stopped working after four days  
due to clogging

## Galaxie Vacuum Action Mosquito and Insect Control

Attracts and kills mosquitoes, flies, midgies, no-see-ums, moths and other annoying insect pests without zapping sounds.

### Vacuum Action Features:

- Multiple attractants; light, scent, shape, color and more.
- Powerful air flow draws mosquitoes and other flying insects into a concealed trap where they dehydrate and die.
- Removable trap provides fast, easy, clean disposal of dead insects.

- Includes a free Flowtron Octenol Mosquito attractant cartridge.
- Fully assembled; plugs into any ordinary household outlet.
- Light weight, portable; weatherproof construction.
- One year limited warranty.

Model PV-75

#### INDOOR/OUTDOOR Insect Control

Outdoor residential use up to 3/4 acre.

Whisper quiet performance.

Special 22 watt circular ultraviolet bulb.

Unit size:: 11" x 11" x 13 3/4"

Model PV-440

#### THE PREMIER MOSQUITO TRAP - Worldwide

**Triple Action killing system** • attract • capture • dispose.

Oscillating LED colored lighting simulates motion.

Infrared heater simulates body temperature.

Ultraviolet black light illuminates trap entrance.

Includes pole, stand and anchor pins.

Includes power converter and 30' of low voltage wiring.

Unit size:: 16"L x 13"W x 33"H

## Flowtron Mosquito PowerTrap; the ultimate in Mosquito & Biting Fly Control

Flowtron PowerTraps mimic humans by using propane gas to produce heat, moisture & carbon dioxide ... the most irresistible attractants to mosquitoes & biting flies.

- Engineered to take on the toughest mosquito & biting fly problem.
- Computerized operation – micro-processor controls all functions.
- Mosquitoes are drawn in by a strong air flow and discharged into a no-escape collection tray.
- See-through collection tray is removable for easy, clean disposal of dead insects.

- Patented "forever-clean" pulsating valve ensures a continuous flow of propane gas.
- Octenol mosquito attractant adds scent to the carbon dioxide emission for optimum effectiveness.
- All models include power converter and 30' of low voltage wiring.

Model MT-125

Recommended for areas up to 1 acre.

LED lighting identifies operational status.

Includes propane tank stand (tank not included)

Unit size:: 17"L x 14"W x 35"H

Model MT-275

Recommended for areas up to 1 acre.

Exclusive "Set & Forget" operation in one of four time settings.

Four pulsating colored ultra bright LED's simulate motion.

Includes propane tank stand (tank not included)

Unit size:: 25"L x 17"W x 35"H

## Complete Line of Accessories

#### Security Wall Bracket — #SB-300

Welded black steel bracket for mounting on wall, fence or other vertical surface. Locking feature helps prevent theft. 6 1/2" high with 10" extension.

#### Mosquito Attractant — MA-1000

Slow release cartridge contains 1660 mg of octenol attractant. Makes your insect killer more effective in attracting mosquitoes and biting flies.

#### Mosquito Attractant Six Pack — MA-1000 - 6

#### Pheromone Fly Attractant — #FA-5000

Attractant lures house and garbage flies to insect killer. Twice as effective as black light alone.

#### Replacement Bulbs

Yearly bulb replacement is recommended to retain maximum black light luring power.

Bulb Models:	BK-15	BF-35	PV-75	BF-180
	BK-40	BF-175	PV-440	BF-195
	BK-80	BF-220		

#### Security Lantern Pole — #SP-200

Rugged 1" dia. black steel tubing. Locking feature helps prevent theft. 10' long with 14" extension.

## Flowtron Fly Control Systems

**For all commercial, industrial, food processing facilities and agri-business applications.**

The effective, economical and safe way to control flies and other unsanitary flying insect pests with minimum maintenance and without costly and hazardous chemicals.

### Diplomat Series Electrocuting Type Units

#### Features

- Glo-Tube and Glo-Panel reflectors for added effectivity.
- Patented high efficiency, 5,600 peak volt killing grid.
- No exploding insects or air-borne contamination.
- Indoor, wall mount units with 66" long power cords.
- Fly attracting pheromone (fly sex lure); 2 strips included free.
- Large removable catch trays for easy cleaning.

#### Model FC-7600

Two high intensity 40 watt UV bulbs, total 80 watts; covers up to 1,200 sq. ft.  
Size: 18" x 15 1/4" x 5 1/4". Bulb type: BF-150. Power consumption: 1.5 amps.

#### Model FC-7800

Three high intensity 40 watt UV bulbs, total 120 watts; covers up to 2,000 sq. ft.  
Size: 26" x 15" x 5". Bulb type: BF-130. Power consumption: 2.4 amps.

#### Model FC-8800

Three high intensity 40 watt UV bulbs, total 120 watts of luring power.  
Indoor: wall mount & ceiling suspension, covers up to 2,000 sq. ft.  
Outdoor: flies and night flying insects, covers up to two acres.  
Size: 26" x 11 1/2" x 11 1/2". Bulb type: BF-130. Power consumption: 2.4 amps.

### Silent-Capture Adhesive Board Type Units

#### Galaxie Wall Sconces

#### Model FC-4400 (Beige) & Model FC-4410 (Stainless Steel)

One high intensity 40 watt UV bulb; covers up to 600 sq. ft.

Uses adhesive panel GB-440

Size: 14 1/2" x 15 3/4" x 5 1/4". Bulb type: BF-150. Power consumption: 0.5 amps.

#### Model FC-4800 (Beige) & Model FC-4810 (Stainless Steel)

Two high intensity 40 watt UV bulbs, total 80 watts; covers up to 1,200 sq. ft.

Uses adhesive panel GB-440

Size: 14 1/2" x 15 3/4" x 5 1/4". Bulb type: BF-150. Power consumption: 1.0 amps.

### Elite Stun Unit

#### Model FC-4700

Two high intensity 40 watt UV bulbs, total 80 watts; covers up to 1,200 sq. ft.

Low voltage grid stuns flies causing them to drop onto an adhesive panel.

Uses adhesive panel GB-470

Size: 18" x 15" x 5". Bulb type: BF-150. Power consumption: 1.5 amps.

### Night Guard Portable Unit

#### Model FC-4900

Two 15 watt UV bulbs, total 30 watts; covers up to 500 sq. ft.

Multi-purpose design, use as free standing portable or may be wall mounted.

Uses adhesive panel GB-490

Size: 11" x 18 1/2" x 3 1/4". Bulb type: BF-205. Power consumption 0.75 amps.

**All Units are U.L. & C.S.A. certified and meet OSHA, EPA, and USDA requirements for use in food handling facilities when used as directed.**

model **MC-9000**

Recommended for areas up to

**2 acres**

## the **BIG GREEN KILLING\*** **MACHINE**

\* Kills mosquitoes, biting flies, midges  
& other annoying insect pests

**Includes one Flowtron Octenol  
Mosquito Attractant**

A scientifically tested lure  
proven effective for mosquitoes  
and biting flies.

**MADE IN  
USA**

- **Five Times More Luring Power Than Other Brands —**  
Three 40 watt UV bulbs provide total of 120 watts of high intensity ultraviolet black light.
- **Exclusive GLOW-TUBE reflector —**  
Re-radiates UV light and provides intense omni-directional UV radiation for maximum effectivity.
- **High Efficiency Killing Grid —**  
Large 255 sq. inch killing surface is **four times larger** than other brands.
- **Titanium Dioxide Coated Surface —**  
Special TiO<sub>2</sub> coating reacts with UV light to produce carbon dioxide, the leading attraction for mosquitoes and biting flies.

### **PLUS**

- ✓ **Fully Assembled** — just hang and plug in.
- ✓ **Easy Bulb Replacement** — Bulbs easily replaced through bottom of unit.
- ✓ **Operates for Pennies a Day** — Provides 24/7 protection from mosquitoes that may carry west Nile virus, dengue fever and other infectious diseases.

**the next level of MOSQUITO & BITING FLY control**

## MOSQUITO POWERTRAP™

Product code: MT-275A

Recommended for areas up to  
**1 acre**

### New and improved features maximize performance

- Four pulsating ultra bright LED's
- Greater dispersion of CO<sub>2</sub> and **Octenol** plume
- Patented "**forever clean**" pulsating valve
- Convenient automatic restart upon a power failure
- Maximum operating efficiencies – mosquitoes become active at temperatures around 55° F (30° C) and higher. Should outside temperature reach 55° F (30° C) unit shuts off and will automatically restart when outside temperature exceeds 55° F (30° C).

### Computerized operation:

- Exclusive "**Set and Forget**" operation
- Select from four individual time settings
- Micro-processor controls all functions

### Octenol lure included:

Time release cartridge adds **Octenol** scent to the carbon dioxide emission for optimum effectiveness

### Vacuum action:

Mosquitoes attracted to the PowerTrap are drawn in by the strong air flow and discharged into a removable collection tray for easy, clean disposal

### Unlike other brands:

**No open flame, no nets to empty, no sticky panels to replace**

### Four Operating Modes:

- 24/7:** On 24 hours, seven days
- 3 hrs:** On at dusk, off three hours later
- 3 + 2 hrs:** On at dusk, off three hours later;  
on again at dawn, off two hours later
- 4 + 3 hrs:** On at dusk, off four hours later;  
on again at dawn, off three hours later
